About us - The Future in Motion

Technische Hochschule Ingolstadt is a dynamic and engaging place to study applied sciences. Since its foundation in 1994, it has provided education in the fields of technology and business, giving students the skills they need to put their academic training to practical use. Our top-notch facilities and programmes mean high student success rates and fewer semesters of study – whether you wish to study full-time, part-time or as a working professional.

By participating in the “family-friendly university” audit, Technische Hochschule Ingolstadt has taken steps towards its goal of improving the balance of work, school and family for its students and employees.

This brochure presents an array of services and counselling options available at Technische Hochschule Ingolstadt for families.

A Family-Friendly University – Children welcome!

Your children are welcome on the Technische Hochschule Ingolstadt campus. The cafeteria has high chairs available for kids. Children’s meals are also provided at discounted prices, or you can warm up food for them.

The campus also has several changing and feeding stations.

Balancing work and family or education and family can be challenging for everyone involved. Since 2010 Technischen Hochschule Ingolstadt has successfully completed the “family-friendly university” audit multiple times and continues to make new efforts to support families at our university.

Our goal is to make it easier for employees and students to combine work and school with having a family.

Flexible Schedules for Employees
Flexible working hours and teleworking make it easier for employees to combine work and family life.

Personal Counselling for Students with Children
The university offers support for students juggling the demands of parenting and academic study. In one-on-one counselling sessions, students with children can create a plan tailored to their needs.

Childcare
The university has reserved places for the children of students and employees at a daycare facility right next to campus. The facility is run by bürgerhilfe ingolstadt e.V. and welcomes children ages 3 months and up, until they start school.

Family-Friendly Work Spaces
The university provides a special office where students and employees can work accompanied by their children on days that childcare is not available. The cozy room can also be used for breastfeeding, changing and feeding your child.

Flexible Childcare Placement
If you are looking for childcare alternatives, we are happy to assist you in your search. Thanks to our contacts at the youth welfare office Ingolstadt and Service Mobile Familie e.V., we have had good luck finding appropriate childcare for all university families – even on short notice.

Leave of Absence
The university grants parental leave to students for up to six semesters. Please contact the Student Service Center (Service Center Studienangelegenheiten) to find out more details.

Part-Time Degree Programme
The THI Business School offers a part-time Bachelor's degree programme in Business Administration (in German) alongside the full-time degree programme. The programme was designed especially for students who, due to their particular living situation, demonstrated a justifiable need for part-time study. Both part-time and full-time bachelor degrees in business administration are identical in terms of content, but part-time students are given more time to complete the programme so that they can devote time to raising their children or caring for other family members.

Advice for Students on Managing Studies and Parenting
Being a student and a parent is not always easy. It requires a lot of planning, discipline and strong will.

If you are a parent, or will be soon, and are enrolled at THI, please contact Yasmine Limberger with the Equal Opportunities Office to schedule your one-on-one, confidential consultation.

Dual Career Service
Technische Hochschule Ingolstadt works together with the Technical University of Munich to support couples pursuing parallel careers. We want to ensure that the whole family is successful and provide help with career planning, training, job searches, networking and placement.
