

Statista

Statistical Information

What can I find in Statista?

- Statistics on over 600 sectors.
- The most important statistics and studies by market-researchers, associations, specialist publications as well as government sources are available.

How can I access Statista?

- Go to the library's website:
<http://www.thi.de/en/service/university-library/information-resources/databases.html>
- Select **Statistical Information** → **Statista**.

Search / result list

- Free search or thematic search by categories.
- To access German statistics, the language needs to be turned into German. For international statistics, choose English.
- You can choose between different manners of displaying the statistics and export them.
- Use [Help & FAQ](#) for further information on the database.

Tip

- The databases Destatis and Statistikportal offer further statistical data: <http://www.thi.de/en/service/university-library/information-resources/databases.html> → **Statistical Information**.
