What can I find in TEMA?

- The database accounts for literature, articles, conference papers and research reports from the field of technology & management.

- Using Fulltext request, you can check whether the result is available as a full text in the THI confined materials. If not, please use the interlibrary loan system.

How do I access TEMA?

- Go to the library’s website: http://www.thi.de/en/service/university-library/information-resources/databases.html

- Select Electrical and Mechanical Engineering, Computer Sciences → TEMA.

Expert search

- A search history is set-up.

- All search steps can be conducted again individually and linked by using AND or OR.

Thesaurus search

- A thesaurus is a structured collection of terms that you can use to find new search terms on your topic.

- Using the □ button, terms from the thesaurus can be included in the search query.

Tips

- Use the button for further explanations on using the database.

- Via Database selection, you can find other databases, which are supplied by the WTi Frankfurt using the same user interface:

  TEMotive  Electromobility
  DKF  Automotive engineering
  ESTEC  Technologies for the environment and sustainability
