| Bol / A | | | | | | |

Right-click the zip folder to select extract, then output the destination folder and click extract.

After that you will find two installation files in the extracted folder, once for the 32-bit version of your operating system and once for the 64-bit version.

Here you can find out which version you need <u>here</u>. Click on the required file to start the installation.

Now your VPN connection is active.

You will see a green sign with a white checkmark in your taskbar showing the status of the VPN connection. Once a padlock is visible, you are connected to the VPN.
